GENERAL INFORMATION

This publication presents enrolment data and related information on the post-secondary programs offered by B.C. universities, community colleges and provincial institutes.

The college and institute enrolment data are based on College Statistical Reports submitted by the institutions in the fall of every year. The data are as at October 31 for the year under review. Prior to the 1974/75 academic year, enrolment data for several colleges were obtained from other sources. A complete listing of the sources can be found in the Appendix.

The university enrolment data are based on a number of sources, the details of which are also identified in the Appendix. Again, the enrolments reported herein reflect once-a-year "snapshot" information. For the Universities of British Columbia and Victoria, November 1 is the report date. For Simon Fraser University, the enrolments are reported as at October 1.

Data Limitations

Although the data are representative for the snapshot date, they may not represent the total services for the whole year. Some institutions, for example, may offer more comprehensive offerings than others during the spring/summer. Snapshot data do not reflect this possibility.

It should also be noted that student enrolment data prior to 1975/76, are obtained from institutional documents which were not thoroughly edited. Consequently, any errors or inconsistencies in the manner the survey forms were completed may not have been rectified.

For the community colleges and provincial institutes, the total enrolments for a given institution should be the same from table to table. For certain statistics however, this was not possible. For example, enrolments reported by age or sex may not be consistent with other aggregations owing to the number of students for whom this information was not reported.

To minimize the possibility of contradictory totals, the reader should note that the first two sections of the publication consist of general enrolment tables. These will provide consistent totals for a given institution. The sections with more detailed information are designed to show relationships (for example, where first-time full-time students last attended secondary school, or the number of males versus females) rather than total numbers of students.

The information presented in this report represents an attempt to provide enrolment data that is useful to the broadest range of readers.

Definition and Symbols

The following terms are frequently used throughout this publication. A more detailed listing of courses by discipline cluster appears in the Appendix.

University Transfer - Includes University Transfer courses and where it has been reported separately, General Studies courses. Commencing in 1976/77, General Studies students are reported as University Transfer or Career/Technical based on their course load.

Academic - Includes University Transfer (as defined above) and College Preparatory programs offered by the community colleges and provincial institutes. For the universities, academic includes all Faculties and Schools.

Career/Technical - Includes all Career program and Technical program students.

Non-Vocational - Includes University Transfer, Career/Technical, General Studies and College Preparatory programs. Continuing educational courses are not included.

The following symbols are used throughout the tabular information:

r indicates a revised figure

P indicates a preliminary or estimated figure

- indicates nil or zero

.. indicates not available

... indicates figure not appropriate

Re: B.C. Post-Secondary Enrolment
Statistics 1984/85

Please find enclosed 1 copy of the above publication. I have also included two new tables with the publication as follows:

- First-time, full-time enrolment, which left school during 1984, by institution attended/school district of origin.
- The same table for enrolments which left school prior to the previous year.

These tables represent a breakdown of Table 62, which I thought might prove useful.

If there are any questions, please contact me at 387-4611, local 458.

Yours truly,

Dorothy A. Drislane
